Declaration of Conformity

For plastic materials und silicone rubber in contact with food

All products listed below are manufactured according to the legal requirements of FDA regulations for food contact. All of those products are free of latex and latex derivatives.

Declarations of Conformity of our suppliers are archived for the following materials

PP – polypropylene – Samix® jar parts and accessories

This material fulfils the requirements on substances used for the manufacturing of materials and articles or components of articles intended to come into contact with food as described in FDA, CFR, Title 21 §177.1520 (a) (1) (i), (b) and (c) 1.1a Olefin polymers.

PE – polyethylene – Samix® jar bottom

This material corresponds FDA, CFR, Title 21 §177.1520 (a) (3) (i) (c1) related specification 2.1 and 2.2.

Silicone – Samix® sealing ring

This material fulfills the requirements specified in FDA, CFR, Title 21 §177.2600.

POM – Samix® mixing blades

This material is compliant with applicable FDA regulations for food contact subject to the limitations listed below. These products are formulated using base resin that is compliant for use in food contact applications complying with CFR, Title 21 §177.2470. Any additives, that may be present, comply with appropriate, specific FDA regulations.

Master batch – various Samix® articles

The following colorants for polymer fulfils the requirements described in FDA, CFR, Title 21 §177.2470 and §177.2470.

- POM – White
- PP – White
- PP – Yellow
- PP – Green
- PP - Blue
